Fast Food, Confectionary, Beverages & Dairy Products

Multi packs, Promotional Materials and many more...

Shrink Wrapping provides **protection** to the product and **enhances** its **aesthetic values**. Single or set of products can be **elegantly packed** together. This is one of the widely accepted **tamper proof packing** method for a variety of consumer and industrial products. It provides **complete protection** to the product from heat, moisture and dust, which **enhances shelf life** of the product.

## Chamber Type Shrink Wrapping Machine

### TECHNICAL DETAILS

### SPECIFICATION

Power Supply	230V, 50 Hz. Single Phase
Sealing Dimension	550mm X 420mm
Max. Packing Dimension	500mm X 350mm
Height of Product	200 mm
Real Consumption	2.25Kw/hr
Max. Film Size	600mm X 300mm Dia
Machine Dimension	1190mm X 750mm X 1450mm(H)
Machine Weight	110 Kg. Approx.
